Our File: ACMI-2,006,US

Dear Ms. Byars:

This letter is in response to the Notice of Abandonment we received regarding the above-referenced patent application, dated November 2, 2004, which has been issued for failure to timely file a reply to the Decision on Petition mailed on August 9, 2004.

The attached documentation will show that we did timely reply to the Decision on Petition by filing our Renewed Petition Under 37 CFR 1.471(a) on October 7, 2004, two days prior to the deadline for filing such reply.

The attached documentation includes a copy of the Renewed Petition filed on October 7, 2004, a fax transaction report printed automatically by our fax machine showing that the transmission was completed, and an Auto-Reply Facsimile Transmission from the USPTO which is an automatically generated return receipt confirming our facsimile transmission was received by the Office.

We further believe this proof of filing prior to the deadline will obviate the need to file a petition requesting that the application be revived.

Please let us know as soon as possible your decision regarding dropping the abandonment and reinstating the application.

Best regards,

James L. Wolfe

DECISION NOTING JOINDER AND
DISMISSING SECOND RENUEWED
PETITION UNDER 37 C.F.R. §1.47(A)
AS MOOT

This is in response to the renewed petition under 37 CFR §1.47(b)¹, filed November 12, 2004.

The above-identified application was filed on October 22, 2003, identifying Khalid Raja, Pratik D'Amelio, Dennis Caudle, Roger Raetzman, Kevin Wood, and Marvin Perret as joint inventors. The application was filed with neither an oath nor a declaration. On January 22, 2004, applicant was mailed a "Notice to File Missing Parts of Nonprovisional Application - Filing Date Granted" (first notice), requiring an executed oath or declaration in compliance with 37 C.F.R. §1.63 and a surcharge for its late filing. This Notice sets a two-month period for reply.

On May 21, 2004, an improperly executed declaration was submitted, and on June 4, 2004, a "Notice of Incomplete Reply - Nonprovisional" (second notice) was mailed, indicating that the

1 A maintainable petition under 37 CFR §1.47(b) requires

(1) The petition fee;

(2) a surcharge if the petition was not filed at the time of filing of the application;

(3) a statement of the last known address of each of the non-filing inventor;

(4) proof that diligent efforts have been made to locate the non-filing inventor;

(5) proof that the Rule 47(b) applicant has sufficient proprietary interest in the subject matter to justify the filing of the application;

(6) proof of irreparable damage; and;

(7) an acceptable oath or declaration in compliance with 35 U.S.C. §§ 115 and 116 and 37 CFR §1.63.

COPY

submission was not acceptable. The second notice did not extend the period for response set by the previous mailing. In reply to the second notice, applicant filed the original petition, the petition fee, and the surcharge associated with the late filing of an oath or declaration. To make timely this reply, a two-month extension of time was requested. Petitioner submitted a declaration executed by each of the joint inventors save Mr. Wood, a statement of facts, the last known address of the non-signing inventor, and copies of several letters. This petition was dismissed via the mailing of a decision on August 9, 2004, for failure to establish that a complete copy of the application was sent to the non-signing inventor, and for failure to submit an acceptable declaration.

With this renewed petition, an acceptable declaration has been submitted which has been executed by the filer's non-signing sole inventor.

This declaration has been reviewed and found in compliance with 37 C.F.R. §1.63.

In view of the joining of the joint inventor, further consideration under 37 C.F.R. §1.47(a) is not necessary and the petition is considered moot. This application does not have any Rule 1.47(a) status and no such status should appear on the file wrapper. This application need not be returned to this Office for further consideration under 37 C.F.R. §1.47(a).

It is noted that the address listed on the petition differs from the address of record. The application file does not indicate a change of correspondence address has been filed in this case, although the address given on the petition differs from the address of record. If petitioner desires to receive future correspondence regarding this application, the change of correspondence address must be submitted. A courtesy copy of this decision will be mailed to petitioner. However, all future correspondence will be directed to the address of record until such time as appropriate instructions are received to the contrary. Petitioner will not receive future correspondence unless a Change of Correspondence Address Form (PTO/SB/122) is submitted for the above-identified application. A blank Change of Correspondence Address Form (PTO/SB/122) may be found at <http://www.uspto.gov/web/forms/sb0122.pdf>.

The application file is being returned to the Office of Initial Patent Examination for completion of pre-examination processing.

Telephone inquiries regarding *this decision* should be directed to the undersigned at (703) 305-0011.
